

Military Family Resources

Kate Waller Barrett Elementary welcomes our active military and veteran families. It is our hope that we help ease the transition into a new school and community by providing some links to resources that are available to military families as well as some helpful things you might be looking for to help your

student become involved. If there are any resources that are not listed here that you feel would be helpful to others, please contact Melissa Maiwald at maiwaldml@staffordschools.net to make her aware of the recommended addition to the page.
