

SORA

- SORA is our school's on-line system which allows students and teachers to access E-books (electronic books) and magazines with their school account.
- You can also add the Central Rappahannock Regional Library to your choices to give you a wider selection.
- Students may access SORA through their school file folder, through Destiny and also through their Google Waffle.
- This is a great option if students love to read, but do not want to carry a book around, but do have access to a device connected to the internet.
