

Local Waiver Intake Process

I have a diagnosed developmental disability that onset before age 22.

Look into applying for the Developmental Disabilities Waivers through your county's Community Services Board.

Stafford (RACSB) – (540) 373-3223

You will be assessed using the [VIDES](#) survey (one of 3, based upon age) to test functional eligibility and asked questions to assess your urgency of need.

If you qualify, you will be put on a Waiting List. The more urgent your situation, the sooner you will receive a Waiver. You will be given one of the three developmental disability Waivers based upon the type of services you need.

I have a disability and a medical nursing need.

Look into applying for the EDCD Waiver through Stafford County's Health Department.

Stafford – (540) 659-3101

You will be assessed using the [Uniform Assessment Instrument \(UAI\)](#)

This link is directly to the VA Dept of Social Services – Adult Services page. The UAI is under the Forms section.

If you qualify, you will begin the process of intake. Services will start in a few months. You may also apply for the Developmental Disabilities Waivers if you are eligible.
