What is AFJROTC?

A.F.J.R.O.T.C stands for Air Force Junior Reserve Officers Training Corps. However, this is not to be confused with the R.O.T.C. program available to college students. Those who join A.F.J.R.O.T.C. are not required to join the military or have any ties with the military after taking the class.

Basic Information

Bearing the image of the military, the goal of J.R.O.T.C. is to create citizens of character dedicated to serving our nation and community. The cadets at our school embrace the Air Force, and its motto: Integrity first, service before self, and excellence in all we do. Cadets are upheld to the expectations of the unit, but also expected to perform well in other school areas. This being said, throughout the year, cadets are rewarded for being academically successful, as well as participating in other extracurricular activities. Also note, cadets will be asked to participate in JROTC events, such as fundraisers, ceremonies, competitions, and practices.

BCT (Basic Cadet Training)

From August 21-25, new cadets will report to North Stafford High School to prepare for the upcoming year. Learning the basics of drill, military customs, and other various skills, cadets who attend will be well prepared for Wolverine AFJROTC.

Events

There are numerous events that take place throughout the school year. The unit takes place in ceremonies, competitions, fundraisers, etc. The most notable of these events include the Military Ball and the Summer Leadership program otherwise known as M.C.O.L.S. (Mountaineer Cadet Officer Leadership School).

Forms and Fees

Various forms need to be completed in order to enroll; these will be given during BCT as well as on the first day of school. The yearly fee to enroll in the class is $125.00 and is different from student dues paid to the school. This fee is used for the funding of curricular events such as the Military Ball, field trips, and competitions.

Teams

- Drill Team - Cadets will learn and practice drill movements for armed and unarmed routines. JROTC rifles are demilitarized models only.
- Color Guard – Cadets will learn to present the national colors, and salute with rifles, during ceremonies, school games, and drill competitions.
- Exhibition - Cadets will learn advanced unarmed or armed drill movements with the rifle such as spinning and tossing the rifle.
- Inspection - Cadets will prepare to be inspected by military officials on uniform, bearing, and AFJROTC knowledge.
- Marksmanship - Cadets will shoot targets from various positions with pellets from a CO2 powered rifle.
- PT (Physical Training) - Cadets will come after school on Fridays to further their physical capabilities.

AIM HIGH!
FLY – FIGHT – WIN
