Top-It

Math objectives: to be able to compare numbers (as a digit, dice dot, domino, or coin)

Materials: Playing cards, numbers only. You can make number cards from 0-10 on index cards.

Directions:

1. Divide the cards evenly between players.
2. Each player lays down a card.
3. The winner is the one with the largest number.
4. The winner says “me”.
5. The winner then takes those cards and puts them in a separate pile from the ones he is turning over.
6. The winner is the person who gets the largest number of cards.

Adjustments to this game:

1. Play with cards that range from 0-20.
2. Lay down 2 or 3 cards at the same time. You will have to add them together.
3. Play that the winner is the one with the smallest number.
4. Make cards with coins on them and play Coin Top-It.
5. Use dominos to play this game.
6. Use dice to play this game.
